

SERVICE AGREEMENTS

Going the Extra Mile

Why take the risk with anything else?

Genuine Service • Technicians in the UD Trucks workshop know your truck inside-out. They constantly update their knowledge and skills as new features are added. UD Trucks workshops have all the efficient diagnostics systems, special tools and the very latest service literature available. They only use parts that belong in your truck – UD Genuine Parts. All this means your truck has the shortest possible downtime and is back on the road quickly.

UD Trucks Service Planning

In order to give your truck exactly the maintenance it needs – neither more nor less – we begin by working together to create a Service Schedule. This Service Schedule is tailored to your trucks and the way they are used. It shows exactly which measures are needed for your particular truck to continue to provide trouble-free operation.

How will a service agreement benefit your business?

At UD Trucks we understand that productivity counts because your truck is your business. Therefore, with UD Trucks Service Agreements our aim is to keep your business on the road and ultimately maximise your profits.
